

Ian Stolte | Technical Designer

(206) 384-1321 | stolte@usc.edu | github.com/Ian-Stolte | ianstolte.com | linkedin.com/in/ianstolte

TECHNICAL SKILLS

- Java, Python, C++, web development with HTML, CSS, JavaScript, and SQL
- Extensive Unity/C# experience, learning Unreal Engine
- Version control — GitHub, Perforce

EDUCATION

University of Southern California

Class of 2028

Bachelor of Computer Science (Games)

- Engineering core gameplay features on a graduate student's thesis project, alongside a team of 20+ members.

Lakeside High School

Class of 2024

4.0 GPA, National Merit Scholar Finalist

- Led a three-person team through a semester-long game industry simulation, building a polished networked multiplayer game
- Took 3 years of computer science, completing every CS course offered

DigiPen Institute of Technology

Summer 2023

4.0 GPA

- Led a seven-person team to develop a full narrative platformer, learning and applying team management, collaboration and communication skills
- Learned narrative, design, and programming skills through 4 weeks of intensive courses

WORK EXPERIENCE

Lakeside Investigate Learning Camp — Counselor

Summer 2024

- Taught classes to 5th-8th graders, managed rooms of 20 students, supported struggling students during class
- Organized and connected with cohorts of 200 kids during recesses and breaks, directed fun activities every morning
- Improved efficiency of cleaning, setup, and check-out procedures by designing new systems and leading other counselors

Mathnasium — Instructor

August 2022 - February 2023

- Tutored 1st-12th graders in math, providing one-on-one explanations and personalized feedback
- Collaborated with a team of instructors to manage rooms of 16 kids, grade pages, and keep students engaged

ACTIVITIES

Independent Game Development

2021 - Present

- Released 5 games and prototyped numerous projects to explore new gameplay mechanics and ideas
- Competed in Ludum Dare and Global Game Jam to develop complete games in 48 hours

Digital Art

2021 - Present

- Created characters, animations, and backgrounds for 5 different games with pixel art, line art, and 3D modeling
- Practiced near-daily with character design and figure drawing exercises, developing comprehensive reference sheets for multiple original characters

Music Composition

2020 - Present

- Composed digital pieces with MuseScore and Garageband, drawing on 12+ years of piano experience
